

You want to live longer?

Be part of the National Donor Programme and receive healthy organs from healthy donors

Regardless of whether...

you are sick,
you have health issues,
you get older,
or suffer from a hereditary disease ?

→ Immediately get in contact with us

Aims of our programme

We want to:

- enable people to live longer and healthier lives
- offer organs from healthy clones under fair conditions
- offer the clones the most beautiful and fulfilled life possible
- inflict as little pain as possible on the clones

Your advantages:

- longer lifespan
- more active lifetime
- better health

If you are interested and want to know more about the programme, turn over!

You have health issues and want to be examined?
Get in contact with us!
We will organize a specialist to take care of you and give advise to you.
If you decide that there is a need for a new, healthy oragan,
the National Donor Programme will help you!

The organs are donated by clones.
They grew up at places like Hailsham, their school and home, with a strict and healthy lifestyle.
Much emphasis is placed on a healthy diet, so that their organs stay as fit as possible.
When the clones are old enough they will become donors.
From their first donation onwards, there are always carers around them to look after the clones.
